

AFTER JUDGE FIELD. SCHIEFFELIN'S FIX. WORLD FAIR SITE.

A Sheriff and a Warrant Arrive in San Francisco.

Lawyers Say District-Attorney White Has Made a Mistake.

The Justice Will Have a Body-Guard if Taken to Stockton.

SAN FRANCISCO, Aug. 16.—The warrant for the arrest of Justice Field, as accessory to the killing of ex-Judge Terry, is here in the hands of Sheriff Cunningham, of San Joaquin County, who arrived late last night.

It was understood this morning that the warrant would be served about 1 o'clock today, or after the adjournment of the term of United States Court at which Justice Field is now sitting in this city.

Justice Field resumed his place on the Supreme bench here with every appearance of calmness, but both he and Justice Sawyer, who is sitting at the same term, are yet under the protection of a United States Marshal.

Although District-Attorney White, of San Joaquin County, issued the warrant for Justice Field's arrest, the lawyers of this city are unanimous in the declaration that the Justice can in no way be held accountable.

The issuing of the warrant is considered a mistake into which the young and inexperienced attorney was led by the half crazy clamoring of Mrs. Terry and her friends.

It is thought exceedingly doubtful if any case can be made even against Deputy Marshal Nagle, and is believed to be certain that no jury can be found to convict him of murder.

Mrs. Terry remained constantly near her dead husband's body while it lay in the Morgue at Stockton.

The man's son, Clinton H. Terry, went from this city yesterday to pay the last tribute to his father.

The young man is very bitter against his stepmother, and declares that she alone is responsible for all the ill that has happened to his father. Said he:

"Father was a decent man after he met her, to what he was before. I had tried to do with him after his second marriage."

"When Judge Field sentenced him to six months in Alameda Jail for contempt and his wife to a shorter period, I thought it my duty to go and see father. I had no sooner got inside the jail than she began to abuse me, and thus it had virtually come into my possession and enabled him to elude his creditors."

This information, Mr. Allison states, came principally through Augustus C. Butts, a real estate broker of Broadway, who was an intimate friend of Mr. Schieffelin.

It is also stated that Mr. Schieffelin is now living in magnificent style at his North Long Branch villa and does not have to work for a living, and although execution was issued after the judgment was obtained in May 1884, it was returned unsatisfied and the bill was never paid.

Mr. McKown was in a state of indignation when he was visited by an EVENING WHIG reporter at his office, 294 Broadway, this morning.

"This is all a put up job," he said. "And I know who is at the bottom of it. Why should Mr. Schieffelin be arrested? He is always in the papers, in the theater, and he only spends his Summers at home."

"What is at the bottom of the job?" asked the reporter.

"Why this person, Augustus C. Butts, mentioned in the papers. He was one of the men who were associated with Mr. Schieffelin in the publishing business. They ran up big debts, and Mr. Schieffelin was bankrupt in getting out of the scrape. He has been a poor man ever since."

"What about the Long Branch property?"

"The statement that I transferred it back to Mrs. Schieffelin is false. I still own the property and I took it on account of Louis I. McKown, who is my son, and he only spends his Summers at home."

"This is due to the fact that laborers are paid not more than half what they are here; engineers, architects and directors gave their services for nothing, and the site was in condition and belonged to me."

Naturally, New York desires to lead in the matter of magnificence and completeness in the Exposition, and Mr. Schwarzowick estimates that to do this \$20,000,000 will be required.

This money he would raise by providing 500,000 square yards of space for exhibitors.

One hundred thousand shares of exhibitors' stock at \$100 would carry with each share 50 exhibition tickets, the right to one square yard of exhibition space and a share in the profits.

Two hundred thousand shares of common stock at \$50 per share with 100 tickets each in the profits.

The remaining 400,000 square yards of space would be sold at \$50 per square yard.

The Wealthy Druggists' Kinsman Arrested for Debt.

E. J. Denning & Co. Accuse Him of Wrongful Concealment.

Living in a Villa at Long Branch, but Can't Pay a Bill of \$900.

Bradhurst Schieffelin arrested on an attachment obtained by the firm of E. J. Denning & Co., has gone to his home at Long Branch, Judge Nehibas of the City Court having placed him in custody of his counsel, ex-Judge D. D. McKoon.

Mr. Schieffelin is a son of the late William H. Schieffelin, founder of the great wholesale drug firm in William street, and is the uncle of the present head of the firm.

It is claimed by E. J. Denning & Co. that Mr. Schieffelin is fully able to pay the judgment of \$931.37 which was obtained against him in 1884, and that he is wrongfully concealing his property so as to avoid the payment of this debt, which was contracted by his wife.

The order of arrest was obtained upon the affidavit of Charles R. Allison, who is the plaintiff's attorney, who alleges that Mr. Schieffelin has property which consists of a mortgage of \$50,000 in real estate in New York and an equity in certain property at North Long Branch.

This is alleged in belief from the fact that in April, 1884, on the death of his father, Bradhurst Schieffelin was entitled to receive \$15,000 from the estate.

Mr. Schieffelin quickly drew out all this money. He had been in business as a publisher of *House and Home*, a monthly periodical, and used the money to pay his obligations.

It is then alleged that the title to the Long Branch property, which is described as a magnificent villa, passed through several hands, and finally came back into the hands of the son, who, it is said, only Dodge Schieffelin's name, and, considering his age, and thus it had virtually come into his possession and enabled him to elude his creditors.

These Suits in many cases are suitable for Fall wear and are unprecedented bargains.

Boys' and Children's Suits are also reduced. Boys' Vacation Suits are now being sold for \$3.50, \$4.50 and \$5.00. Children's Suits at \$2, \$3 and \$4.

OPEN THIS EVENING UNTIL 10:30 O'CLOCK.

THE LEADING AMERICAN CLOTHIERS,
627 and 629 Broadway,
NEAR BLEECKER ST.**

FOUND HIS SON'S CORPSE.

MR. ROUSHORE'S SEARCH ALONG NORTH RIVER AT LAST REWARDED.

The body of young James Rosshore, the clerk of Adams Express Company, who was drowned on Sunday in sight of his ten-year-old brother and his father, Abraham Rosshore, was recovered by the latter to-day at the foot of Franklin street, nearly a mile from the spot where he lost his life.

With this encouragement and its publication in the newspapers throughout the world there is a probability that in the year 1892 we shall see practical aerial navigation.

This unique suggestion for the promotion of flying machine was filed away to be respectfully referred to the Committee on Permanent Organization when it shall organize.

There was the usual number of nominations by individuals and business associations for representation on various committees.

A man for the conduct of the Exposition is to be chosen from the necessary funds offered by E. F. Schwartz, Manager of the United States Branch of the International Publishing Company Limited, which will command its entire cost to the committee.

Ten millions of dollars is thought to be insufficient for the purposes of the proposed Exposition, although enough for that in prospect, probably.

This is due to the fact that laborers are paid not more than half what they are here; engineers, architects and directors gave their services for nothing, and the site was in condition and belonged to me.
